1379.0.55.001 - National Regional Profile, 2002-2006

ARCHIVED ISSUE Released at 11:30 AM (CANBERRA TIME) 28/07/2008

The National Regional Profile (NRP) presents, for all Australia, a range of data for various types of small regions. Data are available for Local Government Areas, Statistical Local Areas and other larger geographies.

The NRP is intended for users interested in the characteristics of regions and in comparing regions across Australia. Data are presented as a five year time series, where available. These data are organised under the broad topics of Economy, Population/People, Industry, and Environment and Energy. Data are available in web pages, Excel spreadsheets, and SuperTABLE data cubes. NRP users are able to access data for single or multiple regions and can search by region name or by selecting regions by map.

The SuperTABLE data cubes, which in the previous edition of the NRP were published under cat. no. 1379.0.55.002, have now been incorporated into this product.

Access the NRP from the [NRP Welcome Page](#).
